-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

DETAILED ACTION

Claim Objections

1. Claims 15-17 are objected to under 37 CFR 1.75 as being a substantial duplicate of claim 18. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 12-14 are rejected under 35 U.S.C. 102(e) as being anticipated by Leppin et al. (US Patent 6,810,705). Leppin et al. discloses a method of making a curved hydroformed tubular member comprising steps of providing and making a bent pre-formed tubular member extending longitudinally; positioning a bent pre-formed tubular member having at least one curved portion with a collapsed wall forming a caved in portion on the at least one curved portion (See attached Figure 5 on page 3 of this Office Action) between open die halves mating with one another to define a tubular cavity portion; progressively closing the die halves to progressively deform the

Art Unit: 3725

bent pre-formed tubular member within the tubular cavity portion; applying hydraulic pressure to expand and conform the bent pre-formed tubular member to the tubular cavity portion to form a curved hydroformed tubular member; and separating the die halves and removing the curved hydroformed tubular member from the die ("internal high pressure produced in a sealed profile cavity by way of a fluid active means," Claim 1).

Response to Arguments

3. Applicant's arguments with respect to claims 12-14 have been considered but are moot in view of the new ground(s) of rejection.

Applicant's arguments, with respect to claims 1-11 and 18 have been fully considered and are persuasive, the rejections for these claims have been withdrawn.

Allowable Subject Matter

4. Claims 1-11 and 18 are allowed. The following is a statement of reasons for the indication of allowable claims: The prior art lacks the combination of using a mandrel with at least one ball and bend die in conjunction with forming a collapsed wall to form a caved in portion on the at least one curved portion.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 3725

however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
